

# Regulations

## FRAMEWORK OF THE COMPETITION:

1. BIG smart cities 5G startup competition is a joint initiative between Nova School of Business & Economics, Vodafone Portugal and Ericsson (hereafter referred to as “the Organizers”), to launch a competition with the objective of encouraging the creation of technological ideas and projects, and to accelerate these projects to improve the life of people who live, work and study in cities by making them Smarter (hereafter “the Competition”);
2. The Competition intends to promote and encourage new ideas and help their creators leverage them for commercial use in the technology market, in and around the topic of 5G Technology;
3. The Applicants, when signing up for the Competition, are applying their technology, idea, application or project based on technologies (hereafter: “Project” or “projects”), under the conditions described herein;
4. By participating in the Competition, when presenting their application, every candidate (hereafter “Candidate”) agrees with and accepts the terms and conditions of these Regulations below.

## 1. COMPETITION CATEGORIES

### 1.1. Candidates can make their application in four different areas:

- a) Smart Mobility: We are looking for projects that use technology to solve Mobility-related issues, including but not limited to: (i) ride sharing, (ii) traffic control, (iii) parking lot management; among others;
- b) Smart Energy: We are looking for projects that use technology to solve Energy-related issues, including but not limited to: (i) renewable energy production and encouraging usage; (ii) smart energy networks, (iii) Efficient energy use; (iv) urban energy storage; among others;
- c) Smart Tourism: We are looking for projects that use technology to solve Tourism-related problems, including but not limited to: (i) out-of-season tourist attraction, (ii) making the most of historical heritage, (iii) improving tourists’ experiences, (iv) access to all types of information; among others;
- d) Smart Health: we are looking for projects that use technology to solve Health-related problems, including but not limited to: (i) E-health, (ii) smart ageing, (iii) health information systems, (iv) better serving healthcare users; among others;
- e) Smart Education: we are looking for projects that use technology to solve Education-related problems, including but not limited to: (i) E-learning, (ii) m-learning, (iii) new teaching methodologies, (iv) smart learning environments, among others.

## 2. CANDIDATE SELECTION CRITERIA

- 2.1. The applications that (i) comply with all requisites established on these Regulations, (ii) have not been excluded at any phase of the Competition and (iii) are selected, will be evaluated according to the following criteria:

- a) Team (skill set, experience and resources);
  - b) Project Quality (creativity/originality, innovation and User Experience design);
  - c) Feasibility (marketability and potential to scale); and
  - d) Usage of 5G Technology\*.
- 2.2. Applications chosen for the “Development” phase, as they are defined in section 7 of these regulations, will also be evaluated by a popularity criterion, by public vote. The application that accrues the most votes in its application page on the [www.bigsmartcities.com](http://www.bigsmartcities.com) portal by the end of the “Development” phase will be awarded with an honorable mention.
- 2.3. Applications chosen for the “Development” phase, as defined in section 7 of these Regulations, will also be judged by the criterion of how well they use 5G Technology.

\*5G Technology is a new generation of Network that allows a new level of mobile communications, by increasing bandwidth, reducing latency and increasing the limit of devices connected to the same access point.

### **3. ELIGIBILITY FOR PARTICIPATION IN THE COMPETITION**

- 3.1. All Candidates that intend to create a Project and release it commercially can apply, as long as they are:
- a) 18 years or older, residents or non-residents in Portugal, intending to release one (or more) Project(s) and launch a startup to commercialize it. Candidates can form groups or teams of up to 5 people. If a group is formed, a representative for the team should be chosen and named, who will be responsible before the Organizers and who will provide, in the name of the rest of the team, all the documents and information necessary to allow the team’s participation in the Contest; or
  - b) Businesses, be they national or international, launched less than 3 years ago and with less than 10 employees at the moment of applications, as long as they intend to release one (or more) Project(s) and launch a startup to commercialize it.
- 3.2. A startup is understood to be a company that by the time of application is less than three years old and has not received an equity investment or benefitted from a similar measure in a value of €100,000 (one hundred thousand euros) or more, or one that is still in its seed phase, with less than 10 employees, that has as its social purpose the exploration of innovative projects, connected to research, investigating and developing innovative ideas, in the technology sector.
- 3.3. Candidates that do not belong to any of the aforementioned groups, identified in 3.1 a) or 3.1 b) can still apply to the Competition, but will only be able to benefit from the support associated with the Testing Phase, mentioned in point 7.1 (iii) below.
- 3.4. . The following groups are also prevented from receiving any monetary prizes under the present Competition:
- a) Any person that works for one of the Organizers, or any company that sponsors the Contest, or any company of the same group as the Promoting Entities or sponsors;
  - b) Service providers for any of the Organizers or sponsoring entities;

- c) Any person who is related by marriage or to the second degree of consanguinity to any employee of any of the Organizing or sponsoring entities;
  - d) Any person that is chosen to be a part of the assessment and evaluation of applications and also any experts or consultants that have taken part in the conception, design or implementation of this Contest or that are called upon to help analyse applications.
- 3.5. Candidates belonging to any of the referred groups in 3.4 who apply to the competition will only be able to benefit from the benefits of the “Experimentation” phase as described on the point 7.1 (iii) below..

#### **4. APPLICATION PERIOD**

- 4.1. The period in which all applications should be submitted begins on the 17th September 2018 and ends at 23:59 on the 21st October 2018 (GMT), so that every Candidate must deliver all the information and documents required in point 5 below on the platform bigsmartcities.com by that date and failure to do so may result in the application being rejected.
- 4.2. In addition, and still during the period defined in the previous point, Candidates can make their applications during 3 events designated as “BIG city challenges” that will take place in the following dates and cities:
- (i) Coimbra | 25th September 2018
  - (ii) Porto | 3rd October 2018
  - (iii) Lisbon | 16th October 2018..
- 4.3. At the end of the 3 BIG city challenges, three winners will be selected and prized with a monetary value of €500 (five hundred euros) each and with direct access to the group of 20 final candidates, with all that that implies. Those that are not selected as winners of the BIG city challenges will still be able to make an online application for their ideas.
- 4.4. The 3 winners of the BIG city challenges commit to being present at the events considered compulsory for all final candidates, including BIG \_Ready, BIG \_Set and BIG \_Go!, and failure to do is a reason for disqualification

#### **5. APPLICATIONS**

- 5.1. Candidates should process their applications to this Competition on the platform bigsmartcities.com, complying with the following:
- 1st. Register the application on the abovementioned platform, to be able to access further information about the Competition;
  - 2nd. Complete the application form with all the information requested, namely the following:
    - Identification for the application (the team’s or the Project’s)\*
    - Name\*, contacts\* and Country\*\* of Candidate/team representative/company

- Information about the team's other elements e link to their LinkedIn\*\* profile
- • Candidate's profile (in personal name or under the company's) (LinkedIn and/or similar)\*\*
- • Project Title\*
- • Project Description\* (Twitter pitch\*)
- • Descrição of creativity and originality involved\*
- • Project's reasons to believe / added value\*
- • Business Model\*
- • Project's technical feasibility\*
- • Technology intended to be used\*
- • Category in which the Project belongs (Smart Mobility, Smart Energy, Smart Tourism, Smart Health or Smart Education)\*

(\*) Mandatory fields

(\*\*) Optional fields

3rd. Expressly accept the Competition's terms and conditions dictated in these Regulations.

Participation in the BIG smart cities 5G challenge Competition, by means of the registration process on the bigsmartcities.com platform, either through online application or through the BIG city challenge application, the Candidate accepts all terms and conditions of these Regulations as well as any related to the use of the platform. Ao participar no Concurso BIG smart cities 5G startup competition, através do registo na plataforma [bigsmartcities.com](http://bigsmartcities.com) e mediante a apresentação da sua candidatura, quer através da candidatura online, quer através da candidatura via BIG city challenge, o Candidato aceita os termos e condições deste Regulamento bem como os relativos à utilização da plataforma.

5.2. Candidates are not required to present a fully-developed Project at this point (a prototype or a developed concept) but should supply information, data or enough material so that the assessment can be made with as much precision as possible regarding the criteria described above. Projects that present the best arguments to make it to the 2nd phase will be considered positively. Only in the 2nd Phase are Candidates expected to further develop concepts and/or prototypes.

5.3 Given the international nature of the Competition, with its intention of launching Projects at a global scale and given that, to help achieve this, part of the members of the Jury are international, it is obligatory that all applications be made in English. Applications in any other language will not be considered. Every Candidate or team can apply more than one Project, but only one Project per Candidate will be allowed in the next phase.

## 6. CANDIDATE RIGHTS AND RESPONSIBILITIES

6.1. All Competition Candidates are ensured the following:

- a) Candidates keep full industrial and intellectual property rights on Projects developed by themselves;
- b) Candidates keep the right to commercialize the Projects developed, granting the Organizers license to use their Project, non-exclusively and for free;

- c) Projects developed at the Competition will have access to a promotion program developed by Vodafone Portugal, if this is its intention, but Vodafone Portugal will hold no rights over the commercialization of the Projects.

6.2. All Candidates represent and warrant that:

- a) ) Information and data provided in the application process will be true, complete and exact and that the application will contain an original work or project, of a creative and unique nature and that it has not been copied or developed in another company or in collaboration with other entities and neither can it be the result of a commission;
- b) The application and all documents and information provided do not violate any third party's rights, including intellectual and industrial property rights, and abide by all relevant legislations and regulations;
- c) Should several Applications be chosen that pertain to the same Candidate (be it as sole representative or as a team member), said Candidate will compulsorily have to choose to participate in only one to proceed to the "Development" phase as described in section 6 of these Regulations, communicating their final decision by writing to the email [hello@bigsmartcities.com](mailto:hello@bigsmartcities.com);
- d) The information and data provided by the Candidate are not, in any way, encumbered, nor are they the object of any promise of transfer, transmission or encumbrance, have not been disclosed to the public in general, nor have they been placed in the national or international market
- e) Any information, data, ideas or projects to which the project is granted access or that comes into contact with or knowledge of through the Competition will not be copied or used; and
- f) Assumes any and every responsibility, of any nature, that happens from any information that is provided in violation with any of the previous clauses.

6.3. All final Candidates authorise using all images, voice recordings, photographs and video collected on the platform and/or at events that are part of the Competition, with the purpose of carrying out promotion and advertising of the Projects developed in any media and in any part of the world. Furthermore, they authorize their use in promotional and publicity material for any of the Organizers associated with this Competition;

6.4 All Projects that are launched to market and fulfil all the prerequisites to benefit from the G-to-Market program promoted by Vodafone through the Vodafone Power Lab, as described by point (iii) of clause 7 below, must use a "Recommended by Vodafone" badge or similar in their Project (placement to be decided) and all communication material of the Project published during the 12 months that follow the launch to market;

6.5 Vodafone reserves the right to assess, at any moment, the eligibility of any application to be selected and/or to remain in the Go-to-Market program and, therefore, to use the "Recommended by Vodafone" badge;

6.6 All Candidates will have direct access to the National Experimental Cities Network (RNCE), a network for experimentation that will support the implementation of a pilot product

## 7. COMPETITION PHASES

7.1. The Competition is organized in 3 phases: (i) Applications, (ii) Development, and (iii) Launch, as detailed below:

### (i) Applications

This phase is open to anybody who wants to participate, under the terms and conditions described above and will begin on the 17th September 2018, and end at 23h59 of the 21st October 2018 (GMT).

This phase will take place as follows:

I. Insights & Info: Participation in the Competition begins with the registration of all potential Candidates in the online portal that has been created for that purpose and that can be found on [bigsmartcities.com](http://bigsmartcities.com).

II. Applications: Candidates must complete their registration at the platform, describing in a generic and structured way the Project(s) they intend to bring to the Competition, supplying all the information requested in the remaining fields of the portal. Information provided by Candidates in this phase will remain confidential, being visible only to members of the organisation of the Competition and the jury.

III. Pre-Selection: The Competition jury will analyse the submitted Projects, checking if candidates have provided all necessary documentation, if no obstacles or impediments exist and will pre-select 30 applications, that will be submitted to a live or virtual interview.

IV. Selection: After the pre-selection stage, 20 applications will be chosen - 3 of which will be drawn from the BIG city challenges - to pass to the next phase, based on the criteria defined in the section 2 of these Regulations. No Candidate (or teams with the same Candidate) can access the “Development” phase with more than one Project selected. It is both necessary and obligatory than all Candidates that find themselves in this situation choose a single Project to participate in.

Candidates in this situation have 3 working days following the announcement of the 20 final candidates’ selection to communicate their choice to the organisers, and should do so by writing to the email [hello@bigsmartcities.com](mailto:hello@bigsmartcities.com).

### (ii) Development

This phase is intended only for the Projects selected at the end of the “Applications” phase and will last approximately 6 weeks. Chosen candidates will be notified by email that they are able to move on with the development of the selected Project and the other Candidates will be notified that they did not make it to the next phase of the Competition.

This phase will take place as follows:

I. Construction: The Project’s construction stage, with compulsory attendance of at least one team member at the BIG \_Ready, BIG \_Set and BIG \_Go! events. Participation by all team members is highly recommended in the mentoring activities, as well as in the BIG \_Go! event, that lasts for 2 days, in which the Project is to be finished, and the pitch and demo or prototype elaborated.

II. Presentation: Final pitch and Project demos. The Projects’ pitch will take place in the BIG \_Final session and the demos/prototypes will take place in the BIG \_Expo area of the event. The language spoken throughout this stage will be English.

III. Evaluation: The jury, depending on application of criteria defined in the section 2 of these Regulations, will evaluate the pitch and the demo/prototype that each team presents during the BIG \_Final event.

- IV. BIG winners selection: The jury selects the 3 BIG winners, they will be announced and their respective prizes will be given out during the BIG \_Final event.
- V. Honorable mention by Public vote: A honorable mention will be attributed to the project that accrues the most votes by 15h00 of the 12th December 2019 (GMT).

### **(iii) Testing**

The Testing phase is destined to the BIG winners and the Honorable Mention announced at the BIG \_Final event and will be supported by one municipality of the RNCE, which will evaluate and aid the Projects in the implementation of a pilot product.

### **(iv) Launch and Scale**

This phase is destined to the BIG winners and the Honorable Mention announced at the BIG \_Final event and will last 12 months with the possibility of extending for a further 6 months, ending with the eventual launch to market of one or more Projects selected. The Launch is a Vodafone Power Lab responsibility and includes the following:

I. Incubation: Phase that incorporates making space available for incubation at an incubator in the city of Lisbon, Porto, or another city deemed appropriate.

II. Mentoring: Continuous monitoring and Project development, with the goal of giving support and advice by specialists of different areas (technical and business) and aiming for the final launch to market.

III. Go-to-market & scale-up after launch: the projects that are launched to market will gain access to a program supported by Vodafone that includes communication across several channels (fixed digital, mobile and print). The final choice of channels and communication calendar will be defined depending on the characteristics of each project and the availability of each channel, aiming to reach 1 million views in one piece or across several moments. It also includes Public Relations activities and international publicity for and about the Projects within the Vodafone Group, in whichever media Vodafone deems appropriate. Projects also have the possibility of becoming suppliers for Vodafone Portugal, becoming a part of Vodafone Portugal Portfolio, becoming a Vodafone Portugal client and/or becoming partners of Vodafone Portugal for future activations in collaboration with the brand.

- 7.2. The organization of the Competition, following the jury's suggestion, reserves the right to decrease or increase the number of applications that make it to the Development phase.
- 7.3. Up to four Candidates that have impediments or limitations as described in clauses 3.3. to 3.5 above that prevent them from being able to win the monetary rewards can apply for the Development phase and a Honorable mention.

## **8. JURY**

- 8.1. The jury is an independent body composed of at least 8 members of publicly recognised reputation and merit, chosen by the Organizers of the Competition.
- 8.2. Decisions are taken by a simple majority of the votes and made in a private session.
- 8.3. The jury will analyze and, according to the selection criteria, select the applications in the many phases of the Competition.

- 8.4. The jury's intervention in the Public Vote will be limited to ensuring the regularity of the votes cast through the platform bigsmartcities.com in each application page.
- 8.5. No automatized voting methods are allowed and, in case that they are identified, all votes cast by this manner will be discounted and the Candidate benefitting from them may be excluded.
- 8.6. For the BIG city challenges, a local jury will be selected that may or may not coincide with the jury that will evaluate and select the applicants that will pass on to the Development phase. This jury will consist of at least 3 members.

## 9. PRIZES

- 9.1. The Competition foresees the following prizes to be awarded from the pool of 20 final Candidates:
  - 3 BIG Winners, chosen according to both the objective criteria (defined in these Regulations) and the subjective criteria (determined by the jury of the Competition); and 1 honorable mention by Public vote attributed to the Project with most votes accrued up until 15h00 of the 12th December 2019 (GMT)
- 9.2. BIG Winners will have access to:
  - a) Prize money for the first place winner, with a value of €10,000 (ten thousand euros) to invest in the development and communication of the Project, after the presentation of the business plan, which should take place up until 1 month after the announcement of the winners;
  - b) Prize money for the second place winner, with a value of €5,000 (five thousand euros) to invest in the development and communication of the Project, after the presentation of the business plan, which should take place up until 1 month after the announcement of the winners;
  - c) Prize money for the third place winner, with a value of €2,500 (two thousand five hundred euros) to invest in the development and communication of the Project, after the presentation of the business plan, which should take place up until 1 month after the announcement of the winners;
  - d) Any other prizes or aid that are considered appropriate or required and will be communicated at the Organizers' convenience.
- 9.3. BIG Winners and the Honourable Mention will benefit from the following aid:
  - a) Working space for the team for 12 months with the possibility of extending the duration for 6 more months, provided by Vodafone Power Lab, at a date to be agreed upon by all parties;
  - b) Support in the go-to-market and launch phases, that will be provided by the Vodafone Power Lab Acceleration Program, as defined by indent (iii) of the section 7 above;
  - c) Acknowledgement and promotion by the sponsors and partners of the Competition; and
  - d) Mentoring for the project provided by Vodafone Power Lab that includes guidance from a coach, monthly meetings with a board of mentors and meetings with investors.
- 9.4. If the Organizers decide it is appropriate, more Candidates than initially predicted might be rewarded. This will be communicated when the Organizers consider appropriate.
- 9.5. The Monetary rewards will be paid by the Organizers of the Competition and are subject to legal taxes, and it is the BIG Winners' sole responsibility to pay any taxes, fees, charges or contributions relative to the rewards received in this Competition.

## **10. ANNOUNCEMENT OF THE RESULTS**

- 10.1. At any stage of the Competition, Projects chosen to move on to the next phase will always be notified via an email to their respective Candidates and/or on the platform bigsmartcities.com.
- 10.2. The Final Projects that enter the “Development phase” of the Competition will be announced at the end of the “Application” phase, within a maximum of 6 working days. The announcement will be published on the platform and those responsible for the Project will be contacted via email.
- 10.3. BIG winners and the Honourable Mention will be announced at the closing of the BIG \_Final event and later published on the Competition website.

## **11. REASONS FOR EXCLUSION FROM THE COMPETITION AND/OR NON-ATTRIBUTION OF REWARDS**

- 11.1. The following behaviours by the Candidates and other interested parties reasons are considered worthy of exclusion from the Competition and/or the non-attribution of the Monetary Rewards or of the Honourable Mention:
  - a) Not fulfilling any obligation fixed in these Regulations and/or the Platform, including but not limited to attendance of events described in point 7.1., (ii), I. and/or not presenting Projects;
  - b) Not fulfilling the requirements relative to the Project and data sets fixed in these Regulations, as well as the non-fulfilment by the Candidate of any aspect of the Regulations that is deemed essential;
  - c) The breaking of any applicable legal provision or regulatory requirement;
  - d) Verification that practices that restrict competition are taking place;
  - e) Verification that an attempt to change the normal functioning of the Competition, including but not limited to fraudulent, automatic or illegal voting practices;
  - f) Any behaviour by a Candidate that is, on account of its nature, deemed unfair towards the other Candidates, including but not limited to, the attempt to change the jury’s decisions and/or votes;
  - g) The non-compliance with any decisions by the jury and/or organisers of the Competition;
  - h) Verification that obstacles and/or conflicts exist on the part of the interested party or Candidate;
  - i) A radical change in the development or incubation phase of the characteristics of the Project, as was presented in the presentation stage of the BIG smart cities 5G startup Competition;
  - j) Closing any commercial deal, of sponsorship or for any another purpose, with any direct competitor of Vodafone Portugal, throughout the duration of the Competition, including the promotion phase of the Project in the Go-to-Market program;
  - k) Any other circumstance or situation that the Organizers deem to be a reason to exclude and/or not award the monetary prize, such as failure to deliver or deliberate falsehood of informations present in the application.
- 11.2. Without prejudicing the rights of the Organizers, if any of the situations described above happen to happen after the prizes have been awarded, the Candidate must return all and any monetary value received to the Organizers within 8 working days from the moment that they are notified of the fact.

## **12. CANCELLING THE COMPETITION**

- 12.1. The Organizers reserve the right to change or cancel this Competition at any moment, by means of sending a notification via email to the Candidates that have already registered and by means of putting up a notice on the platform bigsmartcities.com for all interested parties.
- 12.2. This Competition may also be cancelled in case of force majeure or if applications provided do not meet the minimum quality or creativity requirements or if there are signs of anti-competitive practices and/or not enough application have been presented to allow the Competition to take place.
- 12.3. Cancellation of the Competition in the terms described above does not grant any interested parties and/or Candidates right to any compensation.

## **13. . OTHER CONDITIONS**

- 13.1. Applications and documents submitted will not be returned to the Candidates or other interested parties.
- 13.2. It is up to the interested parties and Candidates to support all researching, application-preparation and Project development costs as well as costs of production and all administrative and miscellaneous costs related to the preparation of the applications, participation in the events of the Competition and in regards to setting up corporate constitution.
- 13.3. Any requests for clarification about this Competition should be made by email to the Organizers to the email provided on the bigsmartcities.com platform, and the answer will be sent through the same channel within 5 working days. All answers and requests for information will be made available to all Candidates signed up on the platform bigsmartcities.com.

## **14. PERSONAL DATA AND ADVERTISING**

- 14.1. Candidates to this Competition, by completing the registration on the platform and/or presenting their applications, grant the Organizers of the Competition identified in section 17 below, with no limitations and expecting no return, the unconditional and perpetual right to be included in a database pertaining to the Contest the content of the applications and their respective personal data including name, contacts and nationality.
- 14.2. Candidates cede the unconditional and perpetual right to the Organizers of publishing and using the information relative to the content of the applications, which the Candidates will communicate publicly during their presentation at the event BIG\_Final and any other that might take place within the context of this Competition, as well as your personal information in as much as it might be necessary for the promotion of this Competition.
- 14.3. Candidates expressly authorize the Organizers of the Competition to film and produce samples of the Project and of selected applications at the BIG\_Final event and any other that might take place within the context of this Competition, using sound and images of the Candidates, and those samples might be used by any of the Organizers in internal and external pieces of communication.

- 14.4. Regardless of the platform containing security measures to safeguard the reception of data on the Internet, the organizers alert to the fact that data circulating the Internet is not entirely safe from occasional diversion and improper accesses, so that communicating pin codes, passwords, confidential codes and any sensitive information is entirely the Candidates' and participants' responsibility in this Competition.
- 14.5. Nova School of Business & Economics is responsible for the database.
- 14.6. The right to access and rectify the data by means of written request is always guaranteed to data subject, if sent to the entity responsible for the database.
- 14.7. Candidates should not commit themselves to any promotional or advertising activities, nor participate in any public announcement about this Competition and/or in any of the events related to it without being given written consent by the Organizers of the Competition in advance.

## **15. LIABILITY EXCLUSION**

- 15.1. Each Candidate shall be responsible for protecting any intellectual or industrial property rights related to their Application and the documents that compose it, for example, by registering the brand, design, industrial models and others. As such, the Organizers shall not be liable for any costs related to loss, damage, accident, expenses or liabilities that the Candidate incurs, relative to any failure in protecting their intellectual or industrial property rights related to the applications and resulting in the participation of this Competition.

## **16. APPLICABLE LAW AND COMPETENT COURT**

- 16.1. These Regulations are governed by the Portuguese law.
- 16.2. Any doubt concerning the interpretation of the present deal shall be resolved by the Jury itself, according to clauses 8.1. and 8.2. of these Regulations.
- 16.3. The Organizers reserve the right to, at any moment, change the these Regulations, and to notify Candidates of changes made by means of an email and/or on the platform [bigsmartcities.com](http://bigsmartcities.com).
- 16.4. The invalidity, whether partial or total, of any clause in these Regulations does not affect the validity of the remaining clauses, or of the validity of the rest of the Regulations themselves, and the reduction or conversion of the Regulations should always be the first reaction to this event.

## 17. COMPETITION ORGANIZERS

17.1. The following entities are considered Organizers of this Competition:

- a) VODAFONE PORTUGAL, COMUNICAÇÕES PESSOAIS S.A, referred to in these regulations as Vodafone or Vodafone Portugal, with Headquarters at Avenida D. João II – Lote 1.04.01, 8th floor, in Lisbon, with €91.068.253 in share capital, holder of the Fiscal Number as registered in the Commercial Registry of Lisbon 502544180;
- b) ERICSSON - TELECOMUNICAÇÕES LDA., referred to in these regulations as Ericsson, with Headquarters at Edifício Infante D. Henrique - Quinta da Fonte 2770-192 Paço de Arcos, Portugal, in Lisbon, with €1.147.235,17€, in share capital, holder of the Fiscal Number as registered in the Commercial Registry of Lisbon 500972052; and
- b) Economics Department of the Universidade Nova de Lisboa – Nova School of Business and Economics (Nova School of Business & Economics), referred to in these regulations as Nova School of Business & Economics.
